Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	30 September 2026
Team ID	Msu207Team12-6ab24e5e6372d772b2c88edb
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	**Employee Data Import**	Upload employee data from Excel/Spreadsheet Load spreadsheet data into the Employee Import Import Set table
FR-2	**Import Set Management**	Create Employee Import table Store imported spreadsheet data in the Import Set table
FR-3	**Transform Map**	Create Sample Spreadsheet Import Transform Map

		Select Employee Import as Source Table Select Employee Test as Target Table
FR-4	**Field Mapping & Data Transformation**	Map Employee ID, Employee Name, Email, Department and Location Transform imported data into the Employee Test table
FR-5	**Duplicate Prevention & Validation**	Use Coalesce to prevent duplicate employee records Verify inserted, updated and ignored records through Transform History
FR-6	**Reports & Dashboard**	Generate Employees by Department report Generate Employees by Location report Create Employee List Report Display reports in Employee Analytics Dashboards

---

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR No.	Non-Functional Requirement	Description
NFR-1	**Usability**	The solution should provide a simple and easy process for uploading spreadsheet data, mapping fields and validating employee records.

NFR-2	**Security**	Employee data should be handled securely within the ServiceNow platform and access should be provided only to authorized users.
NFR-3	**Reliability**	The system should import employee records accurately and maintain correct data during repeated imports.
NFR-4	**Performance**	The system should process spreadsheet data and transform employee records efficiently without unnecessary delays.
NFR-5	**Availability**	The employee import, validation, reporting and dashboard features should be available whenever the ServiceNow system is accessible.
NFR-6	**Scalability**	The solution should support increasing numbers of employee records and repeated spreadsheet imports without affecting the overall functionality.
